

Sock Puppet

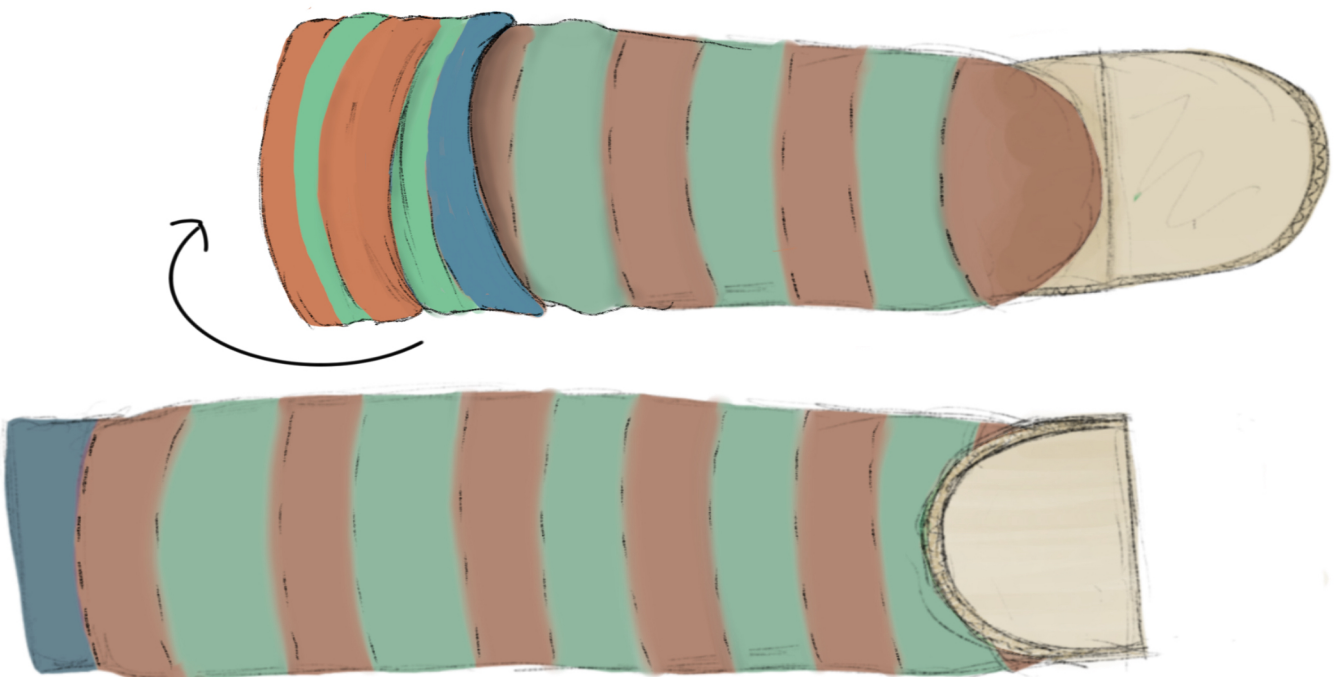

What you'll need:

A sock, cardboard, card, googly eyes, pom poms, string or wool, scissors, hot glue gun or craft glue and a pen.

First make a mouth plate by folding a piece of cardboard in half and cutting out a semi circle.

Turn the sock inside out and glue the inside of the card to the toe of the sock.

Sock Puppet

Carefully turn your sock back the right way and check your mouth plate works.

Decorate your puppet with the pom-poms, googly eyes, card, string or any other craft materials you like!
